CUSTOMER RELATIONS

Order Placement

Our Customer Relations Team is based in a number of locations throughout Australia. They will manage and oversee the order fulfilment process from customer order placement, sourcing of product, freight, through to invoicing.

Orders are accepted via fax or e-mail. Contact information is available on page 3.

All Sales are on [Dyno Nobel's Standard Terms and Conditions of Sale, available on the Dyno Nobel website here.](#)

Product Collection

Dyno Nobel offers both delivery of product and sale of product ex gate.

- Delivered product is priced at ex gate plus the prevailing freight rate at time of delivery. Please contact your Dyno Nobel representative for more information.
- Dyno Nobel does not offer any product on consignment.
- Dyno Nobel can establish bulk explosives delivery depots on mine sites. Contact your Dyno Nobel representative for more details.
- For security and safety reasons, Dyno Nobel no longer supplies product on a cash sale basis. For non-account purchases, please call our Customer Relations Centre.
- All customers must have a licence applicable to the product they are purchasing and Dyno Nobel reserves the right to call for a copy of the relevant licence before it agrees to sell or release the product.

Product Distribution

Dyno Nobel produces and supplies a full range of blasting products, services and technology to customers in the mining and construction industries. Dyno Nobel provides customers with ammonium nitrate products, bulk emulsions, bulk ANFO, cartridge products, initiation systems, electronic detonators and a range of blasting accessories.

Prices are quoted in Australian dollars (AUD) and are GST exclusive. Prices apply for goods ex-warehouse in Australia (Helidon, Bajool, Kalgoorlie).

Price List

PACKAGED EXPLOSIVES

POWERMITE® PRO, DYNOSPLIT® PRO, and Z-BAR®

The POWERMITE Pro series provides a choice of sizes suitable for a variety of blasting conditions.

The DYNOSPLIT Pro series provides perimeter control blasting in continuous cartridge form, also available as RiGHT® version where hot and/or reactive ground conditions exist.

Z-BAR is a contour product, designed to deliver precision blasting in wet or dry underground developments.

Product Description	Product Code	Weight	Unit / Case	List \$ / Box

INITIATION SYSTEMS

NONEL® LP Series

The NONEL LP series provides an effective in-hole initiating system appropriate for underground mining and construction applications. Effective and accurate in-hole long period timing sequences are available, featuring 19 delays ranging from 25 to 8000 milliseconds.

Product Description	Unit / Case	List \$ / Each*	List \$ / Case*
NONEL LP 4.8m	200	6.90	1,380.00
NONEL LP 4.8m	180	6.90	1,242.00
NONEL LP 5.4m	180	7.48	1,346.40
NONEL LP 6.0m	180	8.05	1,449.00
NONEL LP 6.0m	150	8.05	1,207.50
NONEL LP 7.2m	150	10.47	1,570.50
NONEL LP 24m	30	28.19	845.70

(*) = For non-standard lengths, prices will be provided on request.

NONEL® MS Series

The NONEL MS detonator is a millisecond, high strength delay detonator series featuring 28 delays ranging from 25 to 1000 milliseconds. The NONEL MS Series is an effective down-hole initiating system appropriate for a wide variety of mining applications. When used in conjunction with surface delays, the NONEL MS Series gives effective and accurate down-hole timing sequences.

Product Description	Unit / Case	List \$ / Each*	List \$ / Case*
NONEL MS 3.6m	250	6.28	1,570.00
NONEL MS 4.8m	180	6.85	1,233.00
NONEL MS 6.0m	180	7.99	1,438.20

NONEL MS 18.0m	60	18.26	1,095.60

(*) = For non-standard lengths, prices will be provided on request.

Price List

NONEL® MS HD Series

The NONEL MS HD Series provides added strength for heavy duty applications with a wider selection of lengths and delays. The standard delay range features 28 delays ranging from 25 to 1000 milliseconds. Extended delay range going up to 44 delays ranging from 25 to 8000ms is available in the 24m products.

Product Description	Unit / Case	List \$ / Each*	List \$ / Case*
NONEL MS HD 7.2m	150	13.65	2,047.50
NONEL MS HD 9.0m	120	14.21	1,705.20
NONEL MS HD 12.0m	90	15.92	1,432.80
NONEL MS HD 15.0m	75	18.30	1,372.50
NONEL MS HD 18.0m	60	21.6	1,296.00
NONEL MS HD 24.0m	40	27.86	1,114.40
NONEL MS HD 30.0m	30	36.03	1,080.90
NONEL MS HD 36.0m	30	43.55	1,306.50
NONEL MS HD 45.0m	30	54.80	1,644.00
NONEL MS HD 60.0m	30	75.95	2,278.50
NONEL MS HD 80.0m	30	99.48	2,984.40

Extended delay detonators 29 – 44 are available for Underground mining, conditions apply.

(*) = For non-standard lengths, prices will be provided on request.

NONEL® EZTL™

NONEL EZTL detonators, used in conjunction with the NONEL MS, MSHD and LP series, provide an effective surface initiation system appropriate for all mining and construction applications.

Product Description	Unit / Case	List \$ / Each*	List \$ / Case*
NONEL EZTL 4.8m	150	9.01	1,3051.50
NONEL EZTL 6.0m	140	9.92	1,388.80
NONEL EZTL 7.2m	125	11.28	1,410.00
NONEL EZTL 9.0m	100	12.43	1,243.00

NONEL EZTL 15.0m	70	17.67	1,236.90

(*) = For non-standard lengths, prices will be provided on request.

Price List

NONEL® MS CONNECTOR™ Series

The NONEL MS CONNECTOR Series provides an effective surface delay system appropriate for mining and construction applications. The NONEL MS CONNECTOR is used in combination with detonating cord to provide millisecond timing.

Product Description	Unit / Case	List \$ / Each	List \$ / Case
NONEL MS CONNECTOR	200	18.85	3,770.00

NONEL® Starter

NONEL Starter is used as a lead-in line from a safe firing position to the blasting location. It can be used to initiate blasts with NONEL detonators or detonating cord. A NONEL Starter consists of a length of NONEL tube sealed at one end and a NONEL detonator and connector block attached at the other end.

Product Description	Unit / Case	List \$ / Each	List \$ / Case
NONEL Starter 100m	16	73.01	1,168.16
NONEL Starter 300m	4	187.57	750.28
NONEL Starter 500m	4	353.81	1,415.24

NONEL® Lead Line 1000

NONEL Lead Line 1000 is a reel-off NONEL shock tube system used as a lead-in line for the blast initiation, where large firing distances are required. The Lead Line initiation system can be joined to other surface NONEL shock tube systems and cut to the required length.

Product Description	Unit / Case	List \$ / Each	List \$ / Case
NONEL Lead Line 1000m	2	668.31	1,336.62

Electric Detonators

The Electric Super Starter is an instant electric detonator housed in a plastic bunch block facilitating easy connection to both shock tube and detonating cord.

Product Description	Product Code	Unit / Case	List \$ / Each	List \$ / Case
Electric Super Starter 4.9m	ECST0000016X	20	20.06	401.20

Detonating Cord

PRIMACORD® 4A, 5A and PRIMALINE® 10A Detonating Cords have been designed for use as surface and downhole initiating lines. PRIMALINE 10A Detonating Cord is used for side initiation of explosives and may be used in combination with PRIMACORD 5A Detonating Cord. The FIRELINE® RDX 8/40 and HMX 8/40 are specialty detonating cords suitable for a high temperature environment.

Product Description	Product Code	Unit / Case	List \$ / Metre	List \$ / Case
PRIMACORD 4-A 3.6 g/m	A310000MA	2x500m	1.42	1,421.68
PRIMACORD 5-A 5.3 g/m	A320000MA	2x500m	1.36	1,362.44
PRIMALINE 10-A 10.6 g/m	A340000MA	2x350m	1.66	1,161.04
FIRELINE 8/40 RDX LS 610M	A539030	2x305m	10.31	6,536.37
FIRELINE 8/40 HMX LS 500/CS	A544010	1x152m	15.96	2,425.92

Extended lead times for FIRELINE products, conditions apply.

Boosters

TROJAN® SPARTAN and NB UNIVERSAL cast boosters are designed to optimise initiation of high explosives and blasting agents. TROJAN RINGPRIME® cast booster is specifically designed for use in angled or vertical up-holes.
