

Blood Drive 2018

The employees of the Dyno Nobel Corporate Office participated in a blood drive in May 2018. On average, company blood drives yield a 50% participation rate; however, Dyno Nobel had a 73% participation rate donating 22 units, which will save 154 lives!

Thank you to Robin Scheuerman for organizing this event for the office and Kambree Huffaker for coordinating the ARUP Donation Bus and sharing both of your life-saving efforts with Dyno Nobel.

Find out more about the benefits of donating blood at: <http://www.utahblood.org>
